### TERMS OF USE

This website [www.coveredbondlabel.com](http://www.coveredbondlabel.com) (the "Site") is owned and operated by the Covered Bond Label Foundation (the Covered Bond Label Foundation together with its affiliates, "we" or "us") a Private Foundation (fondation privée / private stichting) registered in Belgium; whose registered office is at Rue de la Science 14 - 1040 Brussels - Belgium and registered under number 500.950.659 (RPR/RPM Brussels).

The Site is intended for use as a directory of information relating to certain covered bond products ("Products") (the "Product Information") by an issuer of ("Issuer"), or potential investor in ("Investor"), such Products (an Issuer, Investor, or any other person accessing this Site, each a "User" or "you"). The Product Information is provided by each relevant Issuer, and remains at all times the sole responsibility of the relevant Issuer. We have not independently verified any Product Information, nor reviewed whether any Product for which information is available on the Site actually is a covered bond product. This Site or any label made available through it does not constitute, nor contain, any form of credit rating, any offer to sell (or the solicitation of an offer to purchase) any Product, nor does it constitute a recommendation, or investment advice (or any other type of advice) upon which reliance should be placed.

These terms and conditions together with the documents referred to in them set out the terms of use ("T&Cs") on which (a) an Issuer; (b) Investor; or (c) any other User, may make use of the Site. Section A applies primarily to Investors, and Section B applies primarily to Issuers. The General T&Cs in Section C apply to all Users.

**Our Acceptable Use Policy** and **Privacy Policy** are incorporated into these T&Cs.

Please read the T&Cs carefully before you start to use the Site. By clicking '**Accept**' you indicate that you accept these T&Cs and that you agree to abide by them.

If any provision of these T&Cs shall be deemed unlawful, void or for any reason unenforceable, then that provision shall be deemed severable from these terms and shall not affect the validity and enforceability of any remaining provisions.

## **SECTION A. INVESTOR T&Cs**

### **1. DIRECTORY SERVICES**

The Site is intended to provide you with certain information from Issuers regarding the self-certification of their Products as labelled covered bonds. The requirements of the Covered Bond Label Convention are intended to increase transparency, improve investor access to information, and improve liquidity in covered bonds, but they are not a substitute in any way for each User's independent investment and credit evaluation.

The Product Information on this Site is provided for your convenience only, and does not constitute any form of credit rating, an offer to sell (or the solicitation of an offer to purchase) any Product, nor does it constitute a recommendation, or investment advice (or any other type of advice) upon which reliance should be placed.

Users shall exercise independent judgment when viewing the Site and its contents, to make their own investigations and evaluations of the information contained on this Site or accessible through it, and to consult their own attorney, business adviser, tax adviser, and/or any other professional necessary, as to legal, business, tax and investment-related matters concerning the Products and Product Information contained on this Site. No information contained on the Site should be construed as legal, tax, investment, or accounting advice.

Product Information is incorporated into the directory on the Site following the completion of an automated process conducted by the relevant Issuer. The proper conduct of that process and the accuracy and completeness of the Product Information supplied during that process remain at all times the responsibility of the relevant Issuer. While the Product Information contained on the Site is displayed by us in good faith, no representation is made by us as to its completeness or accuracy. **PRODUCT INFORMATION IS DISPLAYED ON THE SITE "AS IS" AND HAS NOT BEEN INDEPENDENTLY VERIFIED BY US. BY YOUR USE OF THE SITE, YOU AGREE THAT WE HAVE NO LIABILITY WHATSOEVER REGARDING THE ACCURACY OF COMPLETENESS OF THE PRODUCT INFORMATION ON THIS SITE.** Inclusion of Product Information in the directory on the Site does not constitute a warranty or representation by us that the Product is a covered bond product or complies with any particular criteria or regulations.

Completion of the relevant self-certification automated process by the Issuer will lead to the grant of the Covered Bond Label. The grant of such label is entirely within the control of the relevant Issuer, and we do not independently verify whether such Issuer complies with the relevant criteria. The existence of a Covered Bond Label does not represent any opinion by us about the creditworthiness of a Product, the value or price of a Product, the appropriateness of a Product's terms, or the Product's future investment performance. Nothing contained on this Site is intended to predict or project future performance.

We make no representation that the Products which are featured on the Site are suitable for you and we disclaim all liability and responsibility arising from any reliance placed on any Product Information or on the Covered Bond Label by any visitor to the Site, or by anyone who may be informed of any of its contents.

From time to time we may make changes to the Site that we feel are appropriate (see Section C, para 3 below).

Harmonised Transparency Template - Frequently Asked Questions	
<b>General Questions</b>	
<b>Question 1: What is the structure of the Harmonised Transparency Template (HTT)?</b>	
Response 1	The HTT contains 5 main worksheets (A, B1, B2, B3 and C). The first worksheet (A) includes the HTT general information. The second worksheet (B1) presents the mortgage information. The third worksheet (B2) contains the public sector information. The fourth worksheet (B3) contains shipping information. The fifth worksheet (C) represents the HTT glossary, which has a harmonised section across jurisdictions at the top, but also a section for national specificities below. Any additional tabs (D, E, etc.), will contain the National Transparency Template (NTT) information where relevant.
<b>Question 2: Is the HTT going to replace the National Transparency Template (NTT)?</b>	
Response 2	The HTT is compulsory in order to be considered Covered Bond Label compliant. The NTT can be added in order to provide further information at national discretion.
<b>Question 3: What is the reporting frequency of the HTT?</b>	
Response 3	The reporting of the HTT is the same as the reporting of the National Transparency Template (NTT), i.e. at least quarterly.
<b>Question 4: Where should the HTT be posted?</b>	
Response 4	The HTT should be posted in the same location as the National Transparency Template (NTT) is currently posted, i.e. on the issuer's website. There is no common platform for the HTT.
<b>Question 5: In what format the HTT should be disclosed?</b>	
Response 5	The HTT should be disclosed in Excel format in so far as it is possible, as already suggested by the Label Advisory Council and investors. Where issuers are currently providing the Template in both Excel and PDF formats, they are encouraged to continue to do so.
<b>Question 6: Where can I find the reporting date?</b>	
Response 6	The reporting date can be found in the Introduction Tab and in the "Basic Facts" section of worksheet A.
<b>Question 7: What happens when I cannot complete a section of the HTT?</b>	
Response 7	When the information is either (i) not applicable for the jurisdiction, (ii) not relevant for the issuer and/or CB programme at the present time; or (iii) not available at the present time; issuers are kindly requested to include ND1, ND2 or ND3 respectively.
<b>Specific Questions</b>	
<b>Question 8: Does the Harmonised Transparency Template only contain disaggregated information for mortgages and public sector?</b>	
Response 8	Indeed, the HTT only provides disaggregated information for mortgage and public sector assets which represent 99.6% of total outstanding. Information in more detail on other collateral types can always be included in worksheet E, which may contain the National Transparency Template (NTT).
<b>Question 9: How should the "liquid assets" be calculated in the section 3 "General Cover Pool / Covered Bond Information" of the HTT?</b>	
Response 9	Liquid assets are defined as central bank eligible assets, substitute and other marketable assets. This total is calculated over both outstanding covered bonds and outstanding cover assets.
<b>Question 10: How should the "expected" and "contractual" columns of the "Cover pool amortisation profile" be understood?</b>	
Response 10	Contractual maturities assume no prepayment scenario unlike expected maturities. Jurisdictions/issuers publishing the two should disclose their prepayment assumptions for the latter.
<b>Question 11: How should the hedging columns included in section 3 "General Cover Pool / Covered Bond Information" of the HTT be understood?</b>	
Response 11	The currency breakdown before/after hedging aims to assess the potential currency mismatch on the asset and liability sides. This is supplemented by explanations on the issuer's hedging strategy in the Harmonised Glossary.
<b>Question 12: How should the cover assets and covered bonds distribution by currency be populated in section 3.6 and 3.7 in Tab A. HTT General?</b>	
Response 12	In the columns titled "Nominal [before hedging]" and "Nominal [after hedging]" if there is no hedging activity also the amounts for the single currencies should be the same in the two columns. Should there be hedging activity then the currency into which the outstanding has been swapped will receive the respective amount. For example, if all outstanding have been swapped into one currency, only this currency will see a positive amount in the after hedging section. The sum of the columns must match the figures reported under "Total Cover Assets", respectively "Outstanding Covered Bonds" in Section 3.1 of Tab A. HTT General.
<b>Question 13: How should the covered bonds distribution by interest rate be populated in section 3.8 in Tab A. HTT General?</b>	
Response 13	In the columns titled "Nominal [before hedging]", all amounts must be inserted in the line for the interest rate type they have been swapped into. For example, if all outstanding amounts have been swapped into floating rate, only this line should be filled. Total amounts should show the same figures both before and after hedging.
<b>Question 14: How should arrears be populated in Tab E. Optional ECB-ECAIs data?</b>	
Response 14	Performing loans should be excluded from the "1-30 days" bucket. If a loan is in arrears, please report the entire principal amount for the loan, not just the instalment that is in arrears.

## C. Harmonised Transparency Template - Glossary

HTT 2023

The definitions below reflect the national specificities

Field Number	1. Glossary - Standard Harmonised Items	Definition
HG.1.1	<b>OC Calculation: Statutory</b>	Total value of cover pool subtracted nominal value of covered bonds
HG.1.2	<b>OC Calculation: Contractual</b>	Minimum legal required OC of RWA
HG.1.3	<b>OC Calculation: Voluntary</b>	ND2
	<b>Interest Rate Types</b>	<p><b>Index Loans:</b> These are loans where instalments and outstanding debt are adjusted with the development of an index which typically reflects trends in consumer prices. The loan type was introduced in Denmark in 1982. All Danish index loans have index semi-annual payment dates (January 1st and July 1st). Index loans are offered as cash loans. The maturity depends on the loan type. Especially the maturity for subsidized housing depends on the size of the future inflation rate.</p> <p><b>Fixed-rate loans:</b> The long-term – typically 30-year – fixed-rate, callable loan is considered the most traditional mortgage loan. With this loan, the borrower knows in advance the fixed repayments throughout the term of the loan. The long-term fixed-rate mortgage loan has a prepayment option which may be exercised in two ways, i.e. the borrowers may prepay their outstanding debt at a price of 100 (par) or the borrowers may purchase the underlying bonds in the financial markets and deliver them to the mortgage bank. This loan type is also offered with interest-only periods.</p> <p><b>Adjustable Rate Mortgages:</b> Adjustable-rate mortgages (ARMs) were introduced in 1996 and the main advantage of ARMs is that interest rates are generally lower than those of fixed-rate loans when raised. The interest rate is generally reset at a frequency of 1, 3, 5 or 10 years and the underlying bonds are replaced by new bonds. The yield of the new bonds determines the loan rate for the period until the next interest rate reset. The lower initial loan rate should therefore be weighed against the risk that it will increase during the loan term. An ARM may be prepaid at a price of 100 in connection with each interest rate reset. Alternatively, the borrower may prepay the loan by purchasing the bonds on market terms – as with all mortgage loans. This loan type is also offered with interest-only periods.</p> <p><b>Money market based loans:</b> The loan rate changes at generally three or six months. In addition, this loan type differs from ARMs as this interest rate depends on a reference rate, i.e. an interest rate determined in another market. The reference rate of DKK-denominated loans is CIBOR (Copenhagen Interbank Offered Rate) or CITA (Copenhagen Interbank Tomorrow/Next Average ), an interest rate which is quoted daily by NASDAQ. This loan type is also offered with interest-only periods.</p> <p><b>Non Capped floaters:</b> These are loans where the rate changes at generally three or six months. The reference rate of DKK-denominated loans is CIBOR (Copenhagen Interbank Offered Rate) or CITA (Copenhagen Interbank Tomorrow/Next Average ), an interest rate which is quoted daily by OMX NASDAQ. Capped floaters: It is possible to get a loan with a floating interest rate which cannot exceed a certain level (cap). In this way, the borrower hedges against major interest rate increases. If a loan has a cap of 6%, then the interest rate can never be higher than 6%. The loan rate will track CIBOR (or Euribor / Cita), as long as it does not exceed 6%. A floating-rate loan may be prepaid in two ways: either at an agreed price – typically 100 or 105 – or the borrower may buy the underlying bonds at market price.</p> <p><b>Other:</b> Any other loan types, which not comply with the above mentioned.</p>
HG.1.4	<b>Residual Life Buckets of Cover assets [i.e. how is the contractual and/or expected residual life defined? What assumptions eg, in terms of prepayments? etc.]</b>	Only contractual maturity is relevant and reported. Early repayments happens at borrower's discretion is among other things depending on interest rate developments and cannot be anticipated by issuer.
HG.1.5	<b>Maturity Buckets of Covered Bonds [i.e. how is the contractual and/or expected maturity defined? What maturity structure (hard bullet, soft bullet, conditional pass through)? Under what conditions/circumstances? Etc.]</b>	Only contractual maturity is relevant and reported. Early repayments happens at borrower's discretion is among other things depending on interest rate developments and cannot be anticipated by issuer.
HG.1.6	<b>Maturity Extension Triggers</b>	[insert link to the national legislation where the maturity extension triggers are listed - insert link of relevant programme prospectus]
HG.1.7	<b>LTVs: Definition</b>	LTV is reported continuously. The loans are distributed from the start Ltv of the loan to the marginal Ltv. This means that, if the loan is first rank, it is distributed proportionally by bracket size from 0 to the marginal
HG.1.8	<b>LTVs: Calculation of property/shipping value</b>	
HG.1.9	<b>LTVs: Applied property/shipping valuation techniques, including whether use of index, Automated Valuation Model (AVM) or on-site audits</b>	
HG.1.10	<b>LTVs: Frequency and time of last valuation</b>	Minimum once pr. year for commercial properties. Minimum once every third year for owner occupied.
HG.1.11	<b>Explain how mortgage types are defined whether for residential housing, multi-family housing, commercial real estate, etc. Same for shipping where relevant</b>	The Danish FSA sets guidelines for the grouping of property in categories. Property type is determined by its primary use.
