Interest	<p>The coupon rate is floating. Information regarding the specific ISIN is listed in table 1.</p> <p>Realkredit Danmark fixes the initial coupon rate on each ISIN immediately before an ISIN is opened.</p> <p>The coupon is fixed quarterly with effect from 1 January, 1 April, 1 July and 1 October or semi-annually with effect from 1 January and 1 July or April and October.</p> <p>The coupon on an ISIN is determined as EURIBOR (as defined herein) multiplied by 365/360 plus a specified margin/spread for each ISIN.</p> <p>The coupon is rounded to two decimal places.</p> <p>The calculated coupon may become negative. Table 1 shows whether the specific ISIN in this situation will be floored at 0% (interest rate floor) or if the calculated coupon will become effective.</p> <p>Realkredit Danmark determines the fixing-dates, the annual margin, any interest rate floor and the amortisation at the opening of other ISINs.</p>
Definition of the EURIBOR	<p>For ISINs with quarterly fixing EURIBOR shall be the 3-month EURIBOR published daily the fourth last banking day of December, March, June and September, respectively.</p> <p>For an ISIN with semi-annually fixing EURIBOR shall be the 6-month EURIBOR published daily the fourth last banking day of December and June, respectively or March and September respectively.</p> <p>The quotation of EURIBOR is organized by The European Banking Federation (EBF) and The Financial Markets Association (ACI) with Reuters chosen as the screen service provider responsible for computing and publishing EURIBOR (EURIBOR=).</p> <p>If EBF and ACI cease to organise the EURIBOR as defined herein, Realkredit Danmark will calculate the reference rate on the basis of a similar interest rate.</p>

Final Terms series 12G

Realkredit Danmark, as a result of the negative coupon, will be charged by Realkredit Danmark in the form of an additional drawing (interest drawing), calculated at a price of 100, corresponding to the nominal value of the interest payment.

Generally, the interest drawing will not affect the regular drawings occurring due to repayments, terminations etc. Realkredit Danmark reserves the right, however, to reduce regular drawings as well.

Additional drawing of bonds as a result of negative coupon rates will take place at the same time as normal drawings in the specific ISIN.

At the opening of new ISINs Realkredit Danmark A/S may change the date and/or number of annual payments.

Convention

Bonds of the same ISIN pay coupon on each payment date according to one of the following day count conventions.

Actual/actual (fixed fraction)

The coupon is paid on a proportionate basis on each payment date according to the number of annual payment dates, ie the coupon payment on each payment date corresponds to the coupon divided by the annual number of payment dates.

Actual/360

The coupon is paid on each payment date according to the actual number of days in the payment period relative to 360 days, ie the coupon payment on each payment date corresponds to the coupon multiplied by the actual number of days in the payment period divided by 360.

Convention on the specific ISIN is listed in table 1.

Amortisation

Amortisation for each specific ISIN is listed in table 1.

The SDRO's are amortised in alignment with the repayment of the loans issued by Realkredit Danmark on the basis of the bonds.

The loans are either bullet loans or annuity loans with interest-only option. Interest-only periods may not exceed a total of ten years.

Interest-only periods may be selected at the discretion of the borrower during the term of the loan.

Following an interest-only period the loans are amortised using the annuity principle.

The amount of repayments on a loan is calculated to match the interest and repayments of principal on the underlying mortgage covered bonds.

The issued bonds are redeemed at par when the bonds mature, unless their maturity is extended pursuant to section 6 of the Danish Act on Mortgage Credit Loans and Mortgage Credit Bonds, etc.

Table 2 describes whether Bonds in a specific ISIN may be extended pursuant to section 6 of the *Mortgage Credit Loans and Mortgage Credit Bonds, etc. Act*.

If the Bonds do not expire on a banking day, they will be redeemed at par on the following banking day after expiry.
