

INTERNAL LETTER

The remuneration report was approved by the Board of Directors of Realkredit Danmark at a meeting held on 3 March 2021.

To the Board of Directors

Following the Board of Director's approval of the remuneration report, Group HR has conducted back-testing of deferred variable remuneration. The test did not lead to a reduction in deferred income compensation.

The remuneration report incl. quantitative information.

Remuneration report 2020

Please find enclosed Realkredit Danmark's Remuneration Report for 2020. The structure of Realkredit Danmark's remuneration report has been agreed with Group HR and deviates from Danske Bank's Remuneration Report as Realkredit Danmark's Remuneration Report is not subject to the same requirements.

Group HR will not be performing backtesting until in Q1, and a temporary comment has been inserted to this effect. The text is marked as a review comment.

Group HR will first be preparing the quantitative appendices when we approach the deadline for providing the information to the Danish FSA. It has therefore been agreed with Group HR that Realkredit Danmark, just like Danske Bank, will initially publish its Remuneration Report without the quantitative appendices, which will subsequently be made available on www.rd.dk when the information is submitted to the Danish FSA.

Realkredit Danmark's Remuneration Report 2020 will be uploaded to Realkredit Danmark's website in both a Danish-language and an English-language version together with Realkredit Danmark's Remuneration Policy 2021. Publication awaits the approval of Danske Bank Group's remuneration policy 2021 at Danske Bank A/S' annual general meeting in March 2021.

Executive Board

Remuneration Report 2020 Realkredit Danmark

This remuneration report includes remuneration practices and main principles in Realkredit Danmark A/S.

The remuneration report meets the disclosure requirements of Article 450 of Regulation (EU) No 575/2013 of 26 June 2013 (CRR) as amended by Regulation (EU) No 876/2019 and explains governance with respect to remuneration, remuneration structure and principles governing incentive programmes as stipulated in Executive Order No 2169 of 22 December 2020 (replacing Executive Order No 1582 of 2 December 2016 as amended by Executive Order No 1337 of 29 November 2017).

In addition, the remuneration report is based on Capital Requirement Regulation and Guidelines on sound remuneration policies under Articles 74(3) and 75(2) of Directive 2013/36/EU as amended by Directive 2019/878/EU.

Further, the remuneration report describes practices related to regulatory matters, as well as changes of remuneration practices during the year.

The remuneration report provides information on total remuneration to the individual members of Realkredit Danmark's Board of Directors and the Executive Board. Quantitative information on total remuneration to designated material risk takers will be published in May on www.rd.dk.

Information on total remuneration to members of the Board of Directors and the Executive Board of Realkredit Danmark is provided in the annual report.

Supporting Realkredit Danmark's ambition on good corporate governance, this remuneration report further discloses main practices related to implementation of Danske Bank Group's Remuneration Policy, i.e. how governance is established to monitor Realkredit Danmark's compliance to remuneration related regulation.

The Annual General Meeting of Danske Bank A/S approves the remuneration policy for Danske Bank Group after prior consideration by the Remuneration Committee and upon the recommendation of the Board of Directors of Danske Bank A/S. Similarly, Realkredit Danmark's remuneration policy was approved at Realkredit Danmark's general meeting on 9 March 2020 and is available at www.rd.dk when the Danske Bank Group's remuneration policy has been approved at Danske Bank A/S's general meeting.

1 Introduction

Realkredit Danmark is a member of Danske Bank Group and shares Danske Bank's vision, core values and overall strategies. Realkredit Danmark strives to be a modern mortgage credit institution for people and businesses, providing deep financial competence and leading, innovative solutions to meet customer needs.

On an annual basis, Danske Bank Group's and therefore also Realkredit Danmark's remuneration policy and practices are reviewed and adjusted, as required, to reflect changes in regulatory requirements and Realkredit Danmark's strategic priorities. A profound objective of the remuneration policy and remuneration practice at Danske Bank Group is to promote sound and effective risk management related to remuneration matters, including accounting managers to comply with internal governance.

2 Remuneration Policy for Realkredit Danmark

Realkredit Danmark's Remuneration Policy 2020 has been prepared on the basis of Danske Bank Group's Remuneration Policy. Accordingly, a couple of sections on remunerations matters not relevant to Realkredit Danmark have been left out. Realkredit Danmark's remuneration policy applies to all employees inclusive the Board of Directors and the Executive Board in Realkredit Danmark A/S.

2.1 Governance and decision-making process

The Board of Directors of Realkredit Danmark has not established a remuneration committee of Realkredit Danmark, but handles this task on the basis of the remuneration policy for Realkredit Danmark and other HR guidelines.

Annually, Realkredit Danmark's Board of Directors reports to Danske Bank's Remuneration Committee about local remuneration practice, considerations on remuneration and compliance with requirements on remuneration. This governance has been established to ensure that the Group Remuneration Committee monitors remuneration practices across the Group, including subsidiaries.

2.2 Monitoring of Realkredit Danmark's Remuneration Policy

Group HR, a department of Danske Bank Group, monitors changes to regulatory- and/or legislative requirements in order to adjust the Group's and, by extension, Realkredit Danmark's Remuneration Policy and practices accordingly. When new legislation and/or regulation requirements leave options for Danske Bank Group, it is either Group HR, the Executive Board and/or the Board of Directors of Danske Bank who make the decision on the implementation depending on the materiality for Danske Bank. Material changes are subsequently approved by the Board of Directors of Realkredit Danmark.

Internal controls and validation processes for monitoring compliance with the remuneration policy are designed and implemented in a formalised way by Group HR.

The Remuneration Committee of Danske Bank monitors compliance with the Group's remuneration policy as well as the effect of internal controls and validation processes on an ongoing basis, and as a minimum once a year.

2.3 Approval of Realkredit Danmark's Remuneration Policy

Danske Bank's Board of Directors reviews the Group's Remuneration Policy annually. Shareholders at the annual general meeting of Danske Bank A/S approve the revised

Remuneration Policy to the extent that there are changes, and as a minimum every fourth year. The Remuneration Policy in its current form was approved at the annual general meeting in June 2020.

Realkredit Danmark also reviews the Remuneration Policy annually. In 2020 Realkredit Danmark's Remuneration Policy was approved by the Board of Directors of Realkredit Danmark at the board meeting and at Realkredit Danmark's annual general meeting held, both held on 9 March 2020.

3 Remuneration practices

Realkredit Danmark's overall remuneration practices are anchored in the Remuneration Policy, which is published on www.rd.dk. Current governance mainly targets variable remuneration and employee benefits.

3.1 Remuneration principles

Compensation at Realkredit Danmark is a mixture of different compensation elements. Some elements are mandatory, as part of the total compensation package, while some flexibility is offered on other elements.

Base salary is the key compensation element containing flexibility for managers to decide on. Other fixed compensation elements include pension contribution. Collective agreements regulate base salary for the majority of employees. Where applicable, the level for individual remuneration is a matter between the employee and the immediate manager, while at the same time subject to collective agreements and/or the remuneration policy and supporting guidelines.

Changes in remuneration are consulted with Group HR when relevant, and always 'grandfather' approved by the deciding manager's manager. Internal governance and guidelines apply to all compensation elements. The governance and guidelines are published on Danske Bank Group's internal website for easy access for managers.

HR partners are trained in compensation governance to support managers appropriately in decision-making and grandfather approvals.

3.2 Fixed remuneration

All employees in Realkredit Danmark receive a fixed salary, consisting of a base salary according to position and function and an individual allowance to accommodate individual salary development. Employees on individual contractual terms, including at management level, only receive a base salary.

Few exceptions apply due to special circumstances, e.g. allowances can apply as a substitute when specific positions are excluded from variable remuneration, due to regulatory requirements.

Fixed salary levels are evaluated on an annual basis with no guaranteed increase.

3.3 Benefits

Employee benefits are offered to all employees. All employees have mandatory pension contributions, paid holidays and insurances on market aligned terms.

At executive and senior management level, certain benefits are offered to ensure competitive compensation packages, in line with market standards, enabling Realkredit Danmark to attract and retain key resources, e.g. company car and private health checks.

3.4 Variable remuneration

Realkredit Danmark uses performance based variable remuneration to promote desired behaviour, set strategic directions, incentivise and reward high performance. Short term incentives are used to balance an appropriate focus.

As variable remuneration to key employees, i.e. material risk takers, including senior management contains deferral of settled bonus, even short term incentives contains a long term interest in sustainable performance and results.

Variable remuneration in Realkredit Danmark is subject to claw back and reduction via back testing. Variable remuneration is reduced, if performance proves unsustainable or paid based on false information.

Short term incentives are offered to members of the Executive Board and management levels in general. The purpose is to

- Encourage employees to take active part in and responsibility for Danske Bank Group and Realkredit Danmark achieving their strategic goals and objectives
- Motivate employees to meet financial and non-financial objectives while at the same time enforcing a customer centric behaviour and collaborative mind-set
- Incentivise employees to adapt an appropriate risk and compliance mind-set
- Set directions for employees, related to strategic focus and expected behaviour/conduct
- Ensure coherence between business results and remuneration levels in Realkredit Danmark while at the same time balance individual risk taking against performance targets

STI programmes are mainly cash based, though payment in shares (share granting) is used when pay-out exceeds the thresholds set out in the Remuneration Policy, or, when bonus is awarded to material risk takers (aligned to applicable regulations). No share options or other financial instruments are offered.

STI programmes for members of the Executive Board and management levels are based on individual performance agreements which include predetermined performance criteria against targets on Danske Bank Group performance, Business Unit specific performance and individual performance. The KPI levels and the KPIs have different weights depending on the participant's tier level.

The 2020 performance criteria includes both financial, non-financial, quantitative, qualitative, relative, absolute and risk adjusted KPIs e.g.:

- Return on Equity (ROE) and/or Return on Allocated Capital (ROAC)
- Operating Expenses
- Customer Satisfaction
- Appropriate culture with respect to risk management, risk appetite and compliance with legislation
- Societal impact and sustainability

- Employee engagement
- Other KPIs related to each participant's individual area of responsibility

Financial targets for the Danske Bank Group and the Business Unit are measured on results audited by Danske Bank's external auditor. Non-financial targets for the Group and Business Units are also delivered by external parties, e.g. customer satisfaction and reputation scores in main markets.

Further, targets on Risk and Compliance apply on Group and Business Unit level. The performance is evaluated and set by Danske Bank Group's independent control functions; hence, Business Units do not evaluate and settle own performance.

Individual targets may be quantitative as well as qualitative, e.g. behaviour, accomplishment of strategic objectives, or overall value contribution to growth and/or profitability. Individual targets are customised to the individual participant's area of responsibility and is subject to grandfathering upon evaluation.

Some employee segments are restricted by regulation to be rewarded on their commercial activities. Employees in independent control functions are offered variable remuneration; however only to the extent this is deemed relevant and only if conditions for the variable remuneration are considered compliant with regulation.

Variable remuneration paid to employees in control functions, does not depend on the results of the business unit monitored by the employee. If variable remuneration is considered inappropriate for maintaining independency, a fixed allowance is offered as a substitute, e.g. to independent control functions in positions which would otherwise be eligible for variable remuneration.

The Remuneration Policy has defined caps on variable remuneration for different employee segments. Danske Bank Group's Remuneration Policy defines a variable remuneration cap of 200% of individual fixed base salary and pension contribution in a given year. In practice, no individual in Realkredit Danmark will receive performance-based remuneration exceeding 50% of the fixed salary and pension.

In 2020, no incidents of violating caps for variable remuneration were identified and reported.

3.5 Remuneration of the Board of Directors

Board of Directors, elected at the general meeting

Members of the Board of Directors of Realkredit Danmark, elected at the general meeting, receive a fixed cash remuneration. Hence, they do not receive any variable remuneration, pension contribution or other benefits.

Any member of the Board of Directors employed in Danske Bank Group will not receive compensation as member of the Board of Directors of Realkredit Danmark.

All members of the Board of Directors are non-executive directors in Realkredit Danmark. Consequently, no members of the Board of Directors, elected at the general meeting receive other remuneration from Realkredit Danmark.

As members of the Board of Directors receive fixed cash remuneration only, there is no conflict of interest with the Group's remuneration policy.

The cash based compensation model for members of the Board of Directors mirrors the expected workload related to the work on the Board. Thus, a base fee for Board membership is paid to all external members of the Board of Directors. Further, additional fees are paid for Chairmanship of the Audit Committee.

Board of Directors, elected by the employees

Members of the Board of Directors of Realkredit Danmark, elected by the employees, receive a fixed cash remuneration. Hence, they do not receive any variable remuneration, pension contribution, or other benefits in their role as board member. In their role as employees of Realkredit Danmark, they are entitled to variable remuneration and staff benefits, in accordance with their peers.

3.6 Remuneration of the Executive Board

The compensation model for the Executive Board may include the following compensation elements:

Compensation elements	Comments

3.7 Risk impact of remuneration

The primary risk related to Danske Bank Group's remuneration is linked to variable remuneration. The Group has implemented different mechanisms to ensure that variable remuneration does not incentivise excessive risk taking.

Firstly, the Group has initiated a well-balanced distribution between fixed and variable remuneration, ensuring that performance-based remuneration does not exceed 25% of the base salary.

Secondly, Danske Bank Group has initiated a split disbursement of performance based incentives, if the annual pay-out exceeds a threshold, as specified in the remuneration policy. Split disbursement is made in the form of cash and conditional shares, where conditional shares constitute 50% of the total variable remuneration exceeding the threshold. The conditional shares are restricted during a deferral and retention period of three years.

Thirdly, Danske Bank Group has implemented deferral of variable remuneration for material risk takers including members of the Executive Board to encourage sustainable and long-term value creation. Variable remuneration (cash and conditional shares) granted in one year is divided into a part paid initially, and a part deferred four years.

Deferred conditional shares are restricted from transactions 6 months after the release date. The deferred remuneration is subject to back testing before disbursement, i.e. the deferred remuneration is disbursed only to the extent to which the criteria for the original granting are still fulfilled, and at the same time, provided the financial situation of Danske Bank Group has not deteriorated materially. Hence, the disbursement may lapse in part or in full.

Variable remuneration to material risk takers, including members of the Executive Board, is subject to claw-back, if there is evidence that the granting of bonus was made on false basis. The claw-back applies to disbursed parts.

Deferred variable remuneration is subject to an annual internal review (back-testing) to ensure that bonuses were awarded on a sustainable basis. The annual back-testing of deferred variable remuneration for 2020 was carried out by Group HR in the first quarter of 2021. This did not lead to a reduction in deferred income compensation.

On an annual basis, incentive programmes are assessed internally to ensure the appropriateness of the programmes, and to continually monitor, if any programmes can lead to excessive risk taking.

4 Material risk takers

On the basis of Executive Order No 2169 of 22 December 2020 (replacing Executive Order No 1582 of 2 December 2016 as amended by Executive Order No 1337 of 29 November 2017), Danske Bank Group has set up a procedure for identifying material risk takers, using the different articles to assess and identify staff with material influence on Realkredit Danmark's risk profile.

The procedure calls for cooperation between different subject matter experts in Danske Bank Group, namely Group Risk, Group Compliance and Group HR to ensure a comprehensive evaluation of each of the articles, ensuring that the definition of risk takers is continuously maintained.

Danske Bank Group has also established a routine for continually reviewing the criteria for designation of material risk takers. As of December 2020, the number of designated material risk takers in Realkredit Danmark was 37 (2019: 42).

5 Quantitative information

In May 2021, quantitative information will be published on www.rd.dk about material risk takers for 2020, 2019 and 2018. The quantitative information meets the disclosure

requirements of Article 450 of Regulation (EU) No 575/2013 of 26 June 2013 (CRR) as amended by Regulation (EU) No 876/2019.

Quantitative Disclosure on Material Risk Takers Remuneration¹

Realkredit Danmark and Danske Bank Group have established a procedure for identifying staff with material impact on the Group's risk profile. Designation of Material Risk Takers (MRT) is based on relevant EU and local regulation. This disclosure² presents total remuneration earned by Material Risk Takers during 2020 financial year, as well as the status on deferred remuneration.

Danske Bank informs that it applies the provision that variable remuneration of less than DKK 100,000 may be exempted from the rules on split-up and postponement, cf. section 7(4) in the Executive order no 2169 of 22 December 2020.

Designation criteria of Material Risk Takers are reviewed on annual basis. As of ultimo 2020 the number of designated material risk takers in Realkredit Danmark decreased to 41 (2019: 44).

¹ Regulation (EU) no. 575/2013 of the European Parliament and of the Council of 26 June 2013 on prudential requirements for credit institutions and investment firms, as amended by Regulation (EU) No 876/2019 of 20 May 2019

² This disclosure complies with the disclosure requirements of Article 450 of Regulation (EU) no. 575/2013 of 26 June 2013 (CRR), as amended by Regulation (EU) No 876/2019 of 20 May 2019 and the Executive order no 2169 of 22 December 2020. The disclosure further takes note of Guidelines on sound remuneration policies under Articles 74(3) and 75(2) of Directive 2013/36/EU as amended by Directive 2019/878/EU

The figures are pro rata figures based on the period of time for which the employees have been designated as material risk takers.

* The number of employees includes all material risk takers at 31 December 2018. The number of FTEs is a pro rata figure over the year.

** Disbursed variable remuneration will be disbursed during 2019.

*** The amount of outstanding deferred remuneration is based on the number of designated material risk takers in the year of provision and the share price at the time of granting, thus reflecting the costs for Danske Bank Group.
